Year 11 Induction
A warm welcome to all parents and carers to the Cunderdin Ag family. As I mentioned to the Year 11 parents at Induction day, you are part of a broader family stretching back over many years and it is work done over these years by staff, students and parents that has created the fantastic reputation the College now enjoys. It is this reputation that bought us all to the College and it is this reputation that your child, our graduates, will benefit from. It is up to all of us to protect and enhance this reputation. As relieving Principal for the next six months, this will be one of my chief concerns so anything that impacts on this reputation will not receive a positive reception from me.

Having spent many years at other agricultural colleges, I am in a fortunate position to compare and have been pleased with what I see at Cunderdin. Systems work well and are understood by staff and students. What is striking to me is the level of commitment from the staff to go beyond their job and ensure that our students achieve really pleasing outcomes. The College has a great culture and is something that everyone can feel justifiably proud of.

Parents will have received daily lunch notices from the College in recent days and I am hopeful that you find this a useful way of keeping up with what’s going on around the College. I know that young folk are not always forthcoming with information and elsewhere I have found these notices handy for filling the information gap.

**Activities around the College**

Term 1 is always very busy in schools and Cunderdin is no exception. Elsewhere in this newsletter or in the daily lunch notices you will find details about activities such as Wagin Woolarama, WACoA Autumn Carnival at Harvey, cricket and tennis sporting competitions, SCUBA course and trip, Year 12 ATAR Perth trip, Year 12 dinner and other agricultural show involvement. The wealth of activities on offer is testament to staff who recognize that it is these types of extra-curricular activities that often make the difference for student learning and create lasting memories of school.

**Vehicle accident**

Recently a vehicle accident at another agricultural school led to all of our schools having restrictions placed on the driving of vehicles without a staff member physically in the vehicle. This event reminds us that school students operating vehicles is a potentially dangerous activity and is something the Department of Education and schools need to treat very seriously. All students at agricultural colleges and schools undertake a lengthy and rigorous vehicle induction process and a graduated licence system to ensure that students are capable and safe when operating vehicles. Ultimately though we need students to drive vehicles in a responsible and appropriate manner. Sadly this is not always the case and serious consequences can and have occurred in the past.

**Private vehicle use**

Last weekend I noticed that a number of students returning from leave had gathered at the top of the Cunderdin Hill on the Sunday evening. In my opinion, some of their driving was careless and irresponsible, an observation shared by staff who live in the vicinity who have observed similar incidents at the same time of the week. Whilst not on College property, I have a number of concerns over this incident. Firstly I have concerns that irresponsible driving could cause devastating injury to themselves, their passengers, pedestrians and other road users. Secondly, it is not difficult for members of the public to draw the connection between such behaviour and the College and places our reputation in jeopardy. If I find that this practice continues and it causes problems to the College, I will have no hesitation in removing the privilege of having a vehicle on site for those students involved. I would hope that parents reinforce with their young drivers the need to drive safely and with due consideration for other road users, and support us in our efforts to encourage safe habits.
Closed weekend

Parents and carers are asked to remember that Year 11 students finish school at 4.00pm on the afternoon of Thursday 26 February for the closed weekend and return to the College on 2 March ready to recommence normal timetable on Tuesday 3 March. Year 12 students not involved in the Year 12 dinner will also depart the College on Thursday afternoon at 4.00pm.

College Chaplain

Last year the College was unsuccessful in obtaining Federal funding for the School’s Chaplaincy program. However, a funding arrangement established by the State Government and the Department of Education will allow for the equivalent of half a day per week for those schools who missed out on Federal funding. John Nelson, the College Chaplain from 2014, will be in the College on Tuesday and Thursday after school hours to assist students with the weights room, but also to be involved with and available for students who wish to seek his assistance.

Business Manager - Mrs Laura McCart

I would like to welcome back my team as below and wish them a happy year ahead.

Christine Fulwood: School Officer, (enrolments, archiving and front office)
Karen Argent: School Officer, (enrolments and front office)
Julie Skinner: School Officer, (farm admin assistant)
Tanya Glover: School Officer, (leave processor and financial assistant)
Lisa Jasper: School Officer, (HRMIS Residential)
Anita Sullivan: Library Officer, (newsletter and Agricollegian organiser)
Steve Skinner: IT Tech (for whole of College)

To Year 11 parents who are new to the College, I would like to welcome you. I have had meetings with a few of you but am more than happy to answer or meet with you whenever you are at the College.
To Year 12 parents, welcome back to the last year of your child’s schooling year.

Fees

The boarding fees for 2015 are as follows:

1st instalment: $2,690.00 due by 2nd February 2015
2nd instalment: $2,689.00 due by 20th April 2015
3rd instalment: $2,689.00 due by 20th July 2015

Total for the year of 2015 being $8,068.00

Fees are clearly a charge for service and there is an expectation that instalment deadlines be met unless there is a prior arrangement with the Business Manager.

Please be mindful if you have requested for your AIC payment to be directed straight to the College that you forward a copy of your Centrelink statement to the College enabling us to make the necessary credit to your account.
If you have not returned your Boarding Away from Home Allowance form or are unsure if you have, could you please contact me or return as soon as possible, this will allow me to deduct a further $2105.00 from your account.

Could you please ensure that you quote your child’s Student number when making direct payment to avoid any monies received not being placed against correct student. Year 11 parents should have received a letter indicating your child’s CC number; Year 12 parents should have them from last year. If anyone has misplaced this information please phone me at the College.
Methods of payment

ELECTRONIC BANKING
Details for parents wishing to pay fees by electronic banking are as follows:

**Name of Account:** Western Australian College of Agriculture – Cunderdin  
**Bank:** Westpac  
**BSB Number:** 036 107  
**Account Number:** 129 204

Details of transactions can be faxed to (9635 1334) or emailed to Cunderdin.ac@education.wa.edu.au for reconciliation purposes. Please use your Child’s Student Number as reference.

PAYMENT IN PERSON AT BANK
It is imperative that you use the Student Number as the reference when depositing into the College account over the counter at a Bank. With this method of payment, the only details that appear on the College statement is the name of the branch the transaction has taken place at and the Student Number. If it is necessary for the College to request a voucher trace for the details of the payee, a $13.50 fee is incurred which is the parents’ responsibility to pay. Details of transactions can also be faxed to (9635 1334) or emailed to Cunderdin.ac@education.wa.edu.au.

EFTPOS FACILITY
There is EFTPOS available at the front office for payments. This also allows us to take credit card payments over the phone. Below is a Credit Card Authority form if you wish us to take automatic fees on a frequent basis or to pay in full.

CHEQUES
Cheques can be made out to WA College of Agriculture Cunderdin and posted to PO Box 132 Cunderdin WA 6407.

PAYMENT PLANS
Please contact Laura McCart so that plans can be put in place to finalize your student’s account before end of year.

4
Residential - Mr Darryl McCart

Year 11 Induction
Year 11 Induction was held at the College once again this year on 30 January. The students had a mixture of guideline information, induction games, swimming proficiency test as well as a pig on the spit on the Saturday night. A great time was had by students enabling them to get to know each other and form new friendships. Thursday we headed off to Adventure World at Bibra Lake for the water slides and various rides that were on offer. I am sure the staff that attended had as much fun as the students on the water slides; Mr McCart once again took out the king of the hill title on the speed slide even though there was some suggestion that I cheated. I would like to thank the staff that attended Adventure World to make the day a success.

Year 12 Return
Thank you to the parents who ensured that their child returned to the College on time for an evening meal on 1 February, this made for a smooth transition back into residence.

Student Council
I would like to thank all the Student Councillors for returning early to assist with the Year 11 Induction program; these students gave up their free time to help staff (maybe a little enthusiastic with the blindfolds and Yogo induction games, but a good time was had by all).

Residential Staff
Residential staff members can be contacted between 3.00pm to 8.00am on weekdays and at anytime on the weekend on 0427 449 613. Please be advised that this number is not to be used for adjustment to leave arrangements.

Leave Forms
A thankyou to the parents who have made sure that a Leave Form has submitted by the deadline of Wednesday 11.00am. This has enabled us to establish student movement on Fridays for train run and meal requirements, which makes ease for the office ladies and the kitchen staff.

Closed Weekends and School Holidays
We hope to have the new leave system operational shortly. All information will be sent to parents regarding operating instructions and commencement dates. Parents are reminded that the College will provide meals on return of Closed Weekends and School Holidays at 5.45pm. If your child is returning late and requires a meal can you please indicate this on the leave form, we will place a meal aside so that the residential staff can provide this on your child’s return. Please be advised that we will not be doing a roadhouse run for meals as has been the process in the last few years.

Laundry
Parents please be advised that the laundry is fully operational. We are currently washing all uniforms on a daily basis. Once a week we are washing bedding/linen. Students are to have washing ready in the morning and it will be ready to be picked up by 4.00pm most days. Bedding/linen is guaranteed to be returned on the same day. Bedding/linen washing days are as follows: How – Monday, Weller – Tuesday, Linto – Wednesday, Morton & Moyle – Thursday.

A number of students are failing to pick up their laundry after school, this will attract demerit points against their good standing.
Farm - Mr Brett Cox

Well yet another year has commenced with a flying start – our new group of Year 11 students have had their first taste of life on the farm and of course the Year 12 group have picked up where they left off last year. By now, the new students realise that it isn’t all outside work as there is plenty of class time and inductions to wade through to ensure that they are aware of all the requirements for their time on the farm. Overall I have been satisfied with the start they have made and encourage them to work closely with staff to get the best out of their time here.

Likewise, we remind Year 12’s every year at this time that it is a short year for them and the only way for sure-fire success is to work hard every time they are down at the farm. The introduction of the new Skills Journals is something new to contend with, but with the right attitude and a willingness to chip away at it they shouldn’t find it too difficult. Communication with farm staff is also a smart way to ensure that they know what is required in completing units of competency assessments.

I encourage both students and or parents to contact the farm to clarify any concerns there may be to enable the three stakeholders to gain the best possible outcome.

Staffing Moves

April is shaping up as an interesting month for farm as there are several staffing changes to contend with. At the end of the first term holidays, I am off for seven months on combined Long Service Leave and accumulated Annual Leave. It is no secret that I plan to use this time to consider other options outside the College system – 14 years in total with 12 years as Farm Manager is reason enough I believe to move aside and let others steer the ship.

Of a greater significance in my opinion, is the retirement of Assistant Farm Manager Mr Alec Fissioli who is hanging up his Ag College hat after a mere 45 years of service! ‘Fizzy’ has been at the College since 1969 and is an integral cog who is going to be sorely missed once he finishes at the end of Term One. One of the reasons I have lasted in my role as long as I have is down to the dedicated and loyal support given by Alec. He is to be congratulated on his milestone achievement and I’m sure I speak for all College staff, past and present, in wishing Alec a long and fruitful retirement.

Joining our team and assuming my role is Mr Kim Gray. Whilst new to the Ag College system, Kim has an extensive farming background and will bring a new dynamic to the farm. I am sure that he will offer some further detail about his past achievements via this forum. Kim is commencing on the 3rd of March and will work shadow myself to learn aspects of the role first hand. Mr Simon Longmire who is currently one of the cropping Technical Officers, will take over as the Assistant Farm Manager when Alec retires and is also busily learning the ropes ahead of time. I would like to wish both Kim and Simon all the best in their new roles.

Of course Simon’s promotion means that we have to find another TO for his vacated cropping position. We are currently working through the recruitment process to achieve this and are hopeful of having someone in place ahead of the busy seeding period.

Other farm staff are Wayne Laird – Sheep; Tony Ball – Workshop; Garry Jones – General (3 days per week); Shane Childs – Cropping; Shaun Byrnes – Cattle & Poultry; Rhys Vandenberg – Abattoir & Butcher Shop; Madison Davey – Piggery; Kylie Iles – General (2 days per week) and Julie Skinner – Clerical.

General

Term One signifies shearing time is here and consequently long days are being put in at the shearing shed. Year 11 students do a mandatory day in the shed whereas Year 12’s who have taken an interest in shearing are able to spend most of their rostered farm days during this term in the shed. We are very fortunate to again have Australian Wool Innovation (AWI) funded trainers onsite when the 12’s are on farm. Dean King and Kay Bowden bring a wealth of experience in this role. This support is further enhanced with a number of students doing a Certificate III in Wool Clip Preparation & Wool Handling via CY O’Connor Institute with Steward Raine and Owen Snooke sharing
this role. Students do this course partly in their own time and in the shearing shed when they’re rostered on farm. Feedback from both Mr Laird and the external trainers is extremely encouraging suggesting that the students are doing a great job. The hot weather typical of this time of the year hasn’t deterred them in getting the job done.

Some rain early in the summer hasn’t impacted too much on the quality of the paddock feed and as a consequence the vast majority of the sheep and the cattle are in top order. Of course the rain did germinate a range of summer weeds and the spray truck did quite a bit of spraying over the holiday break to control these.

The announcement at the end of last year confirming funding for additional land was something that we had been hopeful of for some time and will bring many positive benefits when it comes to fruition. However we now have to show further patience as the process of actually negotiating and securing land from interested parties is totally managed by Department officials and is done in a diligent and therefore protracted manner based on Government policy. At best, we’re hopeful that we may secure some additional land prior to seeding - whilst this is not guaranteed, I am confident that our program has enough flexibility to take on additional hectares if required to do so at short notice.

Toward the end of last year, we embarked on the process of upgrading our air seeder. Primarily we were keen to move to the next step of liquid injection at seeding to provide better seed nutrition. Our existing air seeder, whilst still in very good condition and evidently able to do a good job – we harvested a record crop last year – doesn’t have liquid capabilities. We were fortunate enough to purchase a second hand DBS 40’ bar and then went through the Government Procurement process to advertise via tender for a suitable air cart box to suit. This process was finalized earlier this year and we are expecting delivery of a new Ausplough Multi Stream 12,000 litre unit by early April in time for seeding this year’s crop. Our existing air seeder will be relocated to Narrogin Ag College with the trade in value reimbursed by the Combined Agricultural Advisory Committee which will cover the cost of the DBS bar. I’m pleased to say that the purchase of the air cart box is covered by farm funds. The fact that the College is in a position to fund such upgrades is evidence of some good financial strategies and recent good results at site.

This new equipment will further enhance our credibility in keeping to the forefront of current technology providing students with fantastic learning opportunities. In recent years we have upgraded our boom spray unit, main truck and some new grain silos amongst other items, funded both by the CAAC and locally.

There was a lot of activity over the Christmas break upgrading the drains and farrowing crates in the College piggery farrowing shed. Doing this job whilst it was still in full production was a big task but somehow we managed to get the job done. The end results are very pleasing and a big improvement. Our new weaner and grower shed is also going well, albeit with a few teething problems along the way that we’re working through.

Training for the Wagin Woolorama junior judging is underway in earnest – Mr Laird continues to do a fantastic job imparting his knowledge to students ahead of the event. Students are also headed off for the first of the shearing competitions – at Pingelly first up where we were successful in the Novice shearing with Jaydan Smith coming 2nd and Matthew McDonald 3rd.

Other excursions to CSBP in Kwinana and the Harvey Beef ‘Gate 2 plate inter school challenge’ at Albany are in the planning stages. With any excursions, parents are requested to return the permission slips as soon as possible to assist in collating the required information.

Finally, parents are reminded to keep an eye out for the weekend duty roster and encourage their son or daughter to get their roster out of the way in a timely manner. If changes are required, we can assist but it is up to the students to plan ahead to avoid clashes with other commitments they may have.
Design & Technology - Mr Stephen Prangnell

A warm welcome is extended to all parents of 2015 students. Students are settling into their routines and we are starting to see some good work.

Major projects will be started soon and a Project Conformation Slip and Commencement Account will be sent out for students starting new projects. Parents need to discuss the selection of projects with their son or daughter. Some projects are quite costly and we prefer parents don’t get a surprise.

Staff are available to talk to parents if assistance is required.

The Trade Training Centre is largely complete. Some disruption will occur this term in Furnishing with the installation of our new dust extraction system. It is hoped that this work will be completed by the end of March. The impact on students will be minimal as most will be completing hand skill work up to this time. Installation of an extraction system to the spray painting area for Engineering and the large vehicle ramp for Automotives will further enhance our facilities along with some other minor upgrades of equipment as the year progresses.

Workshops Open After Hours

The Design and Technology workshops are regularly open after hours during the week. This gives students the opportunity to utilise the workshops for their personal projects or to get assistance with work. If students are planning to make difficult projects or are having difficulty with their work they need to utilise this resource.

Furnishing

Year 11’s are currently completing compulsory exercises and receiving instructions on the correct use of hand tools and machinery. Students are becoming familiar with equipment and are making good progress.

Year 12 students are completing compulsory exercises before continuing with their personal projects from last year.

General Construction

Year 11 and 12 students have been working in the shade developing their bricklaying skills. Once it cools down a bit, work will commence on the large vehicles ramp for Automotives. Then students will be able to put their bricklaying skills to use.

Engineering

Year 11 students are currently completing competencies related to OHS, quality procedures, planning tasks and working with others in the completion of their first task, a sheet metal toolbox. They will shortly move onto Task 2 which primarily involves the development of oxy welding skills. Future tasks for Year 11 students include
the production of a folding shovel and manual metal arc welding procedures. Year 12 students are in the process of completing a number of arc-welding and GMAW (mig welding) exercises before moving onto their personal projects. Any Year 12 student who has not yet started a personal project, will need to decide on a suitable project that can be completed by the end of Term Three. It is important that these projects cover the required competencies and factors such as cost, and student ability also need to be taken into consideration. It is therefore very important that the selection of projects is done in consultation with both staff and parents.

**Automotives**
Year 11 students are developing familiarity with workshop procedures and practising safe jacking using the hoists and safety stands in preparation for vehicle servicing.
Year 12 students are revising workshop practices from last year and are moving onto fuel systems and servicing vehicles.

**Surf Camp Change**
There has been a change for the Surf Camp. Our previous accommodation is no longer available and we have had to go to a smaller venue. As a result of this I have had to split the camp into two camps. The first Surf Camp will be held on 16th and 17th of May. The second Surf Camp will run on the 23rd and 24th May. The Year 12’s will go on the first camp to minimise disruption to their exams. There is some room for a few Year 11’s on this camp. Most of the Year 11’s will go on the second camp as their exams fall later in the term. I will do my best to accommodate individual needs. The camps will cater for beginners and experienced surfers. It is being held in Lancelin and the surfing is at the Back Beach. The Surf clinic will be run by **Scarborough Surf School** and they will supply all surfing equipment including wet suits, surf boards and staff. If students wish to they may take their own surfboards wetsuits etc. Accommodation is in a house walking distance from the beach. The camps are full for this year.

**Farm Duty Roster - Term One**
Reminder - Students will NOT be granted Weekend Leave when rostered on Farm Duty

Class - Mr Paul Jasper

It has been great to see so many new and eager faces in Year 11 this year, welcome to the College! Also, a warm welcome back to the Year 12’s – what an exciting and busy year we all have ahead of us.

We welcome a new staff member to our area. Miss Tenille Harrington has joined us as teacher of Plant Production Systems and Physical Education for Semester One and will be taking over the Maths role of Mr David Hovell who will be taking long service leave then retirement in Semester Two.

Class Area Staff 2015:
Mr Paul Jasper – Acting Head of Curriculum
Miss Shae Bruce – Animal Production Systems
Mrs Leanne Childs – Education Assistant
Ms Kristy Hackford – English
Mrs Rochelle Hooper – Literacy and Numeracy Support Teacher (1 day/week)
Mr David Hovell – Mathematics
Miss Christine Moore – Integrated Science and Mathematics
Miss Tenille Harrington – Plant Production Systems and Physical Education Studies

We all look forward to a productive and successful year ahead. Please do not hesitate to contact any of the teachers or myself if you have any questions regarding the Class Area or your child class work.

ATAR Group 2015
A key area of focus for the Year 12 ATAR group this year is working together as a team to achieve our goals. Students have already started to study hard as they sit their first lot of tests for Term One.

The ATAR students will be attending a study camp in Perth this week staying at the Landsdale Farm School in Perth and attending various Universities in the metro area during the two day camp. The camp is run by Alysia Kepert the Curriculum Consultant for Agriculture Education and she will also be conducting a session on preparation for ATAR Exams on the Wednesday evening. This is the first time a camp such as this has been run for all the colleges across the system and will undoubtedly be a huge help for the ATAR students in terms of preparation for exams and quite possibly university selections for 2016.

Student Success
Congratulations to students who were successful in the following towards the end of 2014:
ABC Heywire – Brittany Reinke and Tekura Irvine (Year 11 2014)
Premier’s ANZAC TOUR – Tom Curnow (Year 11 2014)

Parent/Teacher Interviews
Teachers will be available for interviews with parents from 12.30pm - 2.00pm on Thursday 2 April (last day of Term One). Interview appointments can be made by calling the front office on 9635 2100.

Mathematics - Mr David Hovell

Students undertaking the General Mathematics courses in Years 11 and 12 have been working using the Mathletics online program to practice topics presented in class. Year 11 students are also tested every day on their time tables to improve recall and fluency. Mathletics provides teachers with an opportunity to give students individual help and allows them to work at their own pace one day per week. Students are expected to complete any unfinished topics for homework during the week. All students are able to access this program from home or during prep. Please encourage them to keep up with assigned tasks.
These students are to be congratulated for achieving Bronze certificates in **Mathletics**, which require 1000 points or more to be earned in one week.

**Year 11:** Jarrad Billing, Quintin Cook, Ben Liddelow, Cody Lowe, Brock O’Malley, Digby Harris, Jordan Kelly, Mathew Robinson, Tysen Van Bakkum, Todd Williams.

**Year 12:** Hunter Onn, Oskar Liebeck, Jaxon O’Driscoll, Ryan West, Jackson Evans, Brittany Reinke, Vaughan Harris, Severin Kerse, Damon Manuel, Robert McDowell, Rodd Nichols, Brandon Ward, Bradley Davidson, Christopher Hendix, Thomas Wells.

Special congratulations to these students who have already completed their second certificate: **Lachlan Rendell, William Schorer, Joshua Perry, Alan Richards.**

**Books and calculators**

There are still several students in Year 11 and 12 who have not bought the assigned Maths textbook or calculator. It is very difficult to run a program when students do not have the correct equipment. Could you please ensure these are purchased through **Campion Books** (Malaga or Willeton) and sent directly to the school?

**Parent contact**

At some stage during this Term One I will endeavour to make contact with parents, either by email or phone, to advise of any concerns or special effort shown by your child in mathematics. Parents are welcome to call me at the College if specific information is required.
