On 19 June, the female students with Miss Moore and Mrs Childs from the Ag College rose early on the cold morning to travel to Dalwallinu’s Recreational Centre for the Liebe Group’s 17th inaugural Women’s Field Day. In our blazer and stockings we dressed the part and set the girly mood with some classic chick-flick films.

Upon arrival we joined women from all over the Wheatbelt and even the country to hear Sofi Sipsa from Lupin Foods Australia lecture on the nutritional value of lupins in the human diet.

We then heard from Chris Wheatcraft who spoke from Rural Financial Counselling Services about the risks within agriculture and the planning required for success.

Retreating into the courtyard we had a taste of the talented local women’s morning tea which was greatly enjoyed! This time gave some students a chance to catch up with women from their local community and also speak to members from various industries on our goals, aspirations and ask questions.

After morning tea there were concurrent sessions to choose from including:

- **Kym Jefferies** from NACC promoting the use of social media for the industry
- **Kane Zaknich** from RSM Bird Cameron who discussed the requirements of employing foreign staff
- **James Easton** from CSBP highlighting the importance of fertiliser use in agricultural systems
- **Andrew Tasker** from Rabobank lecturing on ratios, rates and reactions of agricultural banking.

This was followed by an interesting talk from Karlie Mucjanko from the CBH group who discussed the CBH business and how it works as a Co-op with world-wide marketing. This was very beneficial as many students who work seasonally for CBH were able to understand the business aspect of their work.

We were supplied with a lovely two course meal prepared by the Dalwallinu men and we were split amongst the tables where we met many other women from various regions and industries.

We were then joined by Karen Tighe, a radio sports reporter who spoke of her journey through a male dominated industry and the high sports events that she has encountered. This was then followed up by a personal story of how her family lives with a mental illness within the home and the need for awareness.

**Ley Webster** then took the stage, starting with a personal story of the loss of her husband. *Ley* discussed the importance of wanting her two boys to grow up with ‘soil in their blood’. *Ley* was very inspirational to many of us, as a female and single mother she ran the family farm carrying on the dreams her and her husband had and now runs the business ‘2 Workin Oz’ on the farm in training backpackers and recruiting them to farms.

The purpose of this event was to increase the management capacity of women to build a sustainable future for their family farm business and agricultural industry. For us this event allowed us to meet people from the agricultural industry, form networks and gain an insight and knowledge of various topics which were very interesting.

Emily Jaekel
Principal - Mr Bernard Beatty

Trade Training Centre
The TTC is rapidly coming to completion with the partial handover of the Design and Technology Centre and Farm Workshop which are finished. The Piggery still has the internal fit-out, air conditioning system and drop out windows to be installed but is starting to look like a piggery and should be complete by the start of Term 3.

Reports
Reports have gone out and I would encourage parents to carefully read these. A great deal of effort on the part of staff has gone into establishing a realistic vision of where your son or daughter is in their studies and what they need to improve on. I cannot stress the importance of the Semester Reports in relation to students gaining employment. Employers do read these reports and do make judgements on the comments made by staff and make decisions on the suitability for employment of applicants. It is therefore really important that, particularly our Year 11 students, ensure they have the best possible report from here on in. If there is anything you would like to discuss in relation to your son or daughters progress please do not hesitate to contact the appropriate staff. For Farm it is Mr Brett Cox or Mr Travis Hooper, D&T Mr Steve Prangnell, Class Mrs Jane Beatty and for Residential Mr Darryl McCart.

Last week of term
A big thankyou to all staff for the last week of term which has seen Countryweek, industry-based Work Experience, school-based Work Experience and Short Courses. Thanks to all staff for making these events possible for our students

Glen Jakovich Cup
The boys played their last game against Hampton SHS and dominated the game but in the end only won by 13 points 7.8 to 6.1. Goal scorers were Trent Stevens 3, Evan Kerse, Shane Willmot, Brandon Ward, Brayden Curtin 1. The previous week we played Mt Lawley SHS and unfortunately were beaten by a very good side. Final scores were 5.8 to 3.4. While we had our chances, Mt Lawley used the ball much more effectively. As a result of losing just the one game, we were ineligible for the finals. Congratulations to all the boys and a big thankyou to Mr Paul Jasper, Mr Keith Thompson and Mr Ben Elliott for coaching the side. Our Year 11’s no doubt are looking forward to next year’s success.

Visit by Pam Moss
Pam Moss Assistant Director General and Geoff Moyle Director Agricultural Education recently visited our College and were extremely impressed with the staff and students they spoke to at the College. Thanks to Dylan Booth for instructing Pam on the seeder. After half an hour driving the seeder she very reluctantly left the drivers seat and was very complimentary of Dylan’s instruction.

2013 Australian Vocational Student Prize
The Australian Vocational Student Prize recognises the achievement of students who have completed studies in vocational education and training in schools. I am pleased to announce that Shayna Van Bakkum and Tom Howell were both successful in being awarded this prize and will each receive $2,000.

Rotary Exchange Student
We will be welcoming Aydin Serhan Ozdemir a Turkish Rotary Exchange student to the College for terms three and four this year. Serhan will be coming on the North West Tour and will join the ATAR Year 11 group.
We also farewell Manon Auray who has been with us for the last 12 months as a Rotary Exchange student from France. I am sure that this is not the last that Manon will see of Australia and we have thoroughly enjoyed her being part of our College community. We wish her the very best for the future.

IPS Review
The College has recently been through an extensive Independent Public School Review and the 24 page report has been made available to the College but is still waiting for the Director General and the Minister to sign off on the review. Once both have signed off the report will be placed on our website. It has been a very positive review and a credit to the staff’s pursuit of excellence for our students.

I can’t believe that it is already the end of Term 2. Just a few reminders for the end of Semester One.

We have had a deposit made on the 19 June 2014 to the College account. Details were Western Australi WACA..WACOA. If you can identify with this payment, please phone me to confirm the amount so that we can credit your child’s account.

The 3rd instalment of Boarding fees is due when your child returns to the College, unless prior arrangements have been made with me for a payment plan.

The only costs that have not been processed at this stage are:
College Ball
Suit Hire
Led Steer
D & T projects
Graduation payments for any guests

If any parents wish to discuss any financial matters please phone me at the College.

I hope everyone has a pleasant two week break and returns full of enthusiasm for a good start to the new term.

Business Manager - Mrs Laura McCart

happy holidays!
Year 12
The Year 12’s seem to have realized that the end is near. All of a sudden they are working harder and producing more work. They have approximately 6 cycles left at the College. It would be helpful if parents reinforced how little time students have left to encourage them to stay motivated. It also highlights that any absences from their classes can have a large impact on their results.

Reports
All parents are encouraged to contact subject teachers if they would like to discuss their son or daughter’s report. Parents are welcome to visit the workshops and view student projects when visiting the College.

Projects - Engineering and Furnishing
Students working in Furnishing and Engineering are commencing or continuing work on major projects. So that there are no surprises parents need to discuss their son or daughter’s projects with them to ensure they are making something appropriate. Some form of contact is needed between parents and teachers, be it a phone call or a fax letting us know that they are aware of their child’s project. Some projects are very expensive and I would like parents to be aware of the costs associated with the projects selected by their son or daughter.

Accounts – Engineering and Furnishing
Parents may be receiving interim material accounts in the near future. We ask that 50% of the estimated cost of the project be paid prior to commencement. This in reality does not quite happen as we try to eliminate delays in students starting major projects and payments are made after commencing.
Class - Mrs Jane Beatty

Semester One Reports
You will soon receive your child’s report for Semester One. Whilst reading your child’s report please keep the following points in mind:

• A school semester grade is a progress grade and this indicates that the course runs over the whole year and a final grade will not be issued until the end of the year.
• A school semester grade is not fixed and there is room for improvement.
• A final grade is the grade that your child has received for that course as it is a semester long course.
• Grade cut off points may differ between courses.
• Grades are awarded according to course specific descriptors.

Please do not hesitate to contact me if you have any enquiries regarding your child’s report.

CY O’Connor Institute
Year 12 students have recently had a visit from representatives from CY O’Connor Institute who have spoken to the students regarding the wide range of courses available to them including the courses offered by Charles Sturt University at the Muresk Campus.

CY O’Connor is running a ‘Taster Camp’ at the Muresk campus on 24-25 July to promote the University program. Students who have shown an interest in attending this camp have been given the information to bring home for parents to sign.

Please note that this is not a College run camp and the students will need to find their own way to the camp and back and they will be under the supervision of staff from CY O’Connor. Leave forms will have to be submitted as per usual requirements.

WACE Preparation Courses
I have had a lot of enquiries regarding extra tuition for Year 12 ATAR students. There are many WACE revision programs that run in Perth over the holidays and on weekends. Information regarding these programs is below and also available from myself, in the library or on the web.

Congratulations to all students and teachers on a very busy but productive Semester 1. Enjoy your holiday break and we look forward to seeing you all in Term 3.

Farm - Mr Brett Cox

Student Information
The end of the first semester is upon us already marking the halfway point of the year on one measure, but highlighting the fact on the other that our Year 12 cohort are tantalizingly close to finishing their time here. Already there are a steady number of the 12’s that have completed the minimum work required to receive a Certificate II in Agriculture, with the vast number remaining close on their heels. However, a small number of students find themselves well behind where they should be and need to work very hard to complete the required work by graduation. I’m certain that every one of them is able to achieve this goal if they apply the right ethic and commitment, but I’m equally certain that they are the ones who will determine the outcome. As is always the case, I encourage students and/or parents to discuss individual situations with myself or Mr Hooper or other farm staff members.

A number of students have elected to remain onsite during the Country Week program to gain further work experience on the farm or to participate in some short courses being run by external providers. After-hours training is well underway for those students that have elected to participate in the Farmskills and the Led Steer competitions. These activities, along with the Dowerin Fencing team, will gain further momentum next term. Both Mr Laird and Mr Byrnes devote a lot of after-hours time in order for students to gain the necessary experience which is appreciated. Mr Byrnes informs me that there are a couple of vacancies for interested students to join in the Led Steer group at this stage – register your interest with him as soon as possible.

Sheep
Mr Laird and Mr Childs recently took a group of Year 12 students on an excursion to Perth to see our wool being sold at auction. They were also fortunate enough to receive tours of the Westcoast Wool receival centre and the Australian Wool Testing Authority facility. By all accounts the day was enjoyable and educational, and a further part of the process for the wool that the students had personally harvested or handled. Our thanks are extended to Glenn McGill and Brad Faithfull from Westcoast Wool for their ongoing support to the College. Wool prices were down on previous years but overall on the day did as well as they could with the entire clip going under the hammer.

Further thanks are warranted for the kind donation of a truck load of sheep manure pellets from Westcoast Wool to the College – this has been rebagged into 25 kg bags that we are offering for sale for $5 per bag. Proceeds will be put into a student account for purchasing of student related items. See the advert in this...
newsletter if you’re interested in buying some weed-free sheep manure.
Lambing is well under way for the Merino flock with the earlier dropped crossbred lambs being marked at better than 110%. Some cull young wethers and cull ewes sold at auction at Muchea recently for a respectable price.

Workshop
Mr Ball has taken the bit between his teeth and is managing the compost project on a daily basis; most often with students doing the relevant work. He is utilizing baled straw, animal manures such as from the poultry and horse areas, and any other carbon based waste material that he can source from across the site. As you can imagine, a facility such as this generates a fair amount of paper, cardboard, garden and kitchen waste, so the ability to transform these into a useful product that can be reused across the garden or farm has to be beneficial. In addition to this, he is using water recycled from the piggery as required to keep it moist and thus activate the process.

Cropping
The cropping enterprise continues to shape up as a positive year with moist soil conditions keeping both crops and pastures in good shape. Rainfall events have been timely with 140ml of rain since the end of April. This compares to less than 50ml for the same period last year. Extremely strong winds associated with a cold front last week - which thankfully caused minimal damage for us, and frosty conditions in recent days, have each added to the stresses that the crops endure, but for the main part they are coping well. Monitoring of paddocks for weeds and pests is ongoing with timely advice and intervention ongoing.
A visit to the College earlier in June by the Director of Agricultural Education Mr Geoff Moyle and his line manager - Assistant Executive Director Statewide Planning and Delivery Ms Pam Moss, was an opportunity for students to show off the seeding equipment in action. Ms Moss was impressed with the overall farming operations she witnessed, in particular the opportunity to be able to have a go operating the 4WD tractor and air seeder under the watchful eye of one of the Year 12 students. A lot of the credit for the Ag Colleges across the state being as well resourced as they are is down to the hard work of Geoff and his team in central office and the chance to share that success with other staff higher up the ladder is a welcome chance that we were keen to participate in.
The cropping staff spent a day or so planting the first of our Old Man Salt Bush seedlings. The bulk of the plants won’t be available until mid-July so another few days of planting will happen then.

New Buildings
Our new farm workshop and office area has been handed over for use – I am waiting for the arrival of new furniture before taking up residence in my office. However, completion of the piggery is still to happen with internal pens and other infrastructure waiting to be installed. I’m assured by the site manager for the project that this won’t take long once commenced. Watch this space.
Staffing
We had the luxury of a full staffing compliment from the beginning of week 7 this term when Mr Fissioli returned from his long service leave break. The many photographs and numerous accounts of his travels indicate that he had a terrific time away enjoying the European summer. As usual, Mr Fizz has jumped straight back into work with his ‘can do’ manner, although he keeps complaining about the cold!

Butchershop
Some scheduled work to replace the flooring in the butcher shop freezer took place recently requiring the removal of the entire stock into a mobile freezer van brought in for the purpose. Of course once the job was completed the contents of the truck were transferred back into the freezer – no easy job. Well done to Mr Vandenberg and staff involved in this exercise.

Grain Trailer
Earlier this week we took delivery of a second hand pig trailer to go behind our new truck for grain cartage. Although it is an older trailer, it is very well made and in good overall condition, and with a bit of a tidy up, should serve our purposes for many years to come.

I'm sure there are things that I've missed in this brief summary but hopefully what has been covered provides an idea about activities that have happened or are pending. I trust that all students and staff are able to enjoy some well-earned time off over the holiday period and look forward to an equally busy Term 3.

---

Consequences of not sitting examinations in 2014

Final-year students enrolled in a Stage 2 or Stage 3 pair of course units that they are required to sit for, and make a genuine attempt at, the WACE examination in that pair of units (unless exempt for a Stage 3 WACE course examination or have opted out of sitting for a Stage 2 WACE course examination).

A student who is required to sit a WACE examination and chooses not to, or chooses not to make a genuine attempt in the examination, will not get a WACE course report in that course or a WACE course score for that course recorded on their statement of results. In addition, the grades for those units in the course will not be counted in the determination of the C grade average for the WACE.

As a consequence, a student may not meet the requirements to receive a WACE.
Residential - Mr Darryl McCart

North West Tour
Everything has now been finalised for this year’s North West Tour. There will be 59 students and 8 staff attending this year. A meeting with students was held recently and expectations of behaviour were outlined. Students were also reminded that they must still abide by the College guidelines whilst on the tour and any serious behaviour problems would see them returned to their parents on the first available flight. If students need to take medication with them on the tour can parents please ensure that it is handed to me on the Sunday that they return for the tour. Students are expected to have hair cuts before the tour if required, this is up to parents to organise. Parents are also reminded that if students return to the College with hair dyed in patches they will be asked to go home and not attend the tour.

Leave Forms
Leave forms are continuing to be a problem for some students as well as the Administration staff who have to collate the information. Can we please get leave forms in by 11am on Wednesday mornings. A number of forms are being received on Fridays which makes life difficult for everyone involved. Students are also reminded to check the board to see if their leave has been received, it saves a lot of grief on Friday afternoons at 4pm.

Laundry
Due to the onset of winter and wet weather it has become necessary to cut back what clothes can be put into the laundry. We are currently doing all school clothing and bedding on a daily basis, however students are required to take care of their casual clothing utilising the machines in their dormitories.

College Photos
Midland Photography will be at the College on Monday 25 August to take College photos. Students will receive order packages before this date so that parents can view pricing and place orders.

College Ball
The 2014 College Ball will be held at the Hyatt Regency Terrace Ballroom on Friday 29 August commencing at 6.30 pm for pre drinks. Parents are welcome to attend during this time to take photos and socialise with students and staff.

Ferrari Formal Wear will be at the College on Tuesday 19 August for suit fittings if your son requires to hire a suit for the ball.

More information about the College Ball will be sent out in Term Three.
